CISSP *Boot Camp*

Securely Yours LLC—Helping You Prepare for the CISSP Exam

The CISSP certification has been the gold standard for information security professionals since the certification was created by the International Information Systems Security Certification Consortium, Inc. (ISC)2 in 1994. The CISSP continues to be one of the most recognized and respected security certifications in the industry and is accepted by organizations around the world.

Securely Yours LLC (SY LLC) is delighted to offer a CISSP boot camp to assist you prepare for the CISSP exam. This class is a 5 day boot camp. The class will be taught by professionals who are CISSP's with over thirty years of practical information security experience. We will cover each of the ten domains, including practical examples of the use of each domain. We will include pointers to other sources of information and provide a practice exam following the completion of each domain to help cement the learning process. The training course will include courseware materials.

Boot Camp Highlights

- Starts Monday 8 am and ends Friday 5 pm
- Courseware material provided (electronic version)
- Breakfast (continental) and Lunch (sandwiches) included in the fee
- Taught by CISSP professionals
- Over 30 years of professional practical experience
