

Security and Compliance made easy

SECURING YOUR INFORMATION WORLD THROUGH CONSULTING, MANAGED SERVICES AND SOFTWARE AS A SERVICE

Whether your information security needs an on-sight consultant, or if you are looking for solutions which require no upfront capital, quick deployment with minimum updates to your IT environment, Securely Yours has a solution for you. We have combined our years of IT experience with our Big-4 Audit experience to develop innovative solutions for your organization.

Securely Yours provides a blend of consulting, managed services and Software as a Service (SaaS) solutions to maximize the return of your IT Security and IT Compliance budgets. We have applied decades of our experience in enabling solutions which improve your Security and Compliance posture while reducing the overall cost.

Securely Yours has investigated the landscape of information security domains and identified several areas where its clients can benefit from software as a service model. For domains like log management, security information and event management (SIEM), vulnerability scans and policy compliance, an organization should not have to spend on expensive software licenses, but should be able to take advantage of the SaaS solutions offered by Securely Yours.

QUICK DEPLOYMENT. BETTER SECURITY. ZERO OR SMALL CAPITAL COST. VIRTUALLY NO MAINTENANCE.

flexible solutions for your business needs

SECURE CLOUD BENEFITS

According to Gartner, whether you are ready for cloud computing or not, it is here to stay. Cloud computing allows an organization to address IT costs with a 'just-in-time' approach. Hard IT costs (servers, storage, applications licenses, IT Staff time) can be increased (decreased to respond to business cycles without requiring ramp-up or down time. A secure cloud environment can provide the same and even additional security of an enterprise's data and applications. It provides a centralized, managed IT infrastructure that the enterprise pays for on a usage bases eliminating its own IT capital costs.

SECURITY-AS-A SERVICE

Cost benefits of Software as a Service include reduced total cost of security services. This is due to the fact that an organization does not incur software or maintenance fees but only pays for the services it consumes.

CONSULTING

An Organization's Data protection program is only as strong as its weakest link. Do you know the weakest link in your information system infrastructure?

Securely Yours consulting provides a data protection program that helps organizations Identify, Manage and Protect their information. In most organizations data is pervasive and resides on various systems, infrastructures, platforms applications databases and data marts. Identifying, managing and protecting data is becoming almost impossible due to the following reasons:

- *Lack of people, process & technology controls to manage data lifecycle*
- *Non-existent or inadequate classification of data based upon its value to the organization*
- *Confidential data is ubiquitous with lack of classification, ownership and controls to protect the data*
- *Growing number of and complexities of regulatory requirements*
- *Technology has been a moving target for several years*
- *Organizations desire to do more with less people*

Most organizations do not even know what data is leaving their organization and when.

Through our proven data protection methodology and maturity model, Securely Yours has industry knowledge, technology expertise and the right team to assist you with your enterprise data protection program.
