  - PCI COMPLIANT REPORT
  - IDENTIFY POLICY VIOLATIONS

Vulnerability Management and Compliance

EXTERNAL AND INTERNAL PENETRATION SCANS, WEB APPLICATION SCANS, PCI COMPLIANCE AND POLICY COMPLIANCE

IT SECURITY AND COMPLIANCE DELIVERED AS A SERVICE

Understanding your overall security posture—and doing so in relation to compliance requirements—has historically been time consuming, costly to implement, difficult to manage, and limited in terms of cross-functional information use.

The Vulnerability Management and Compliance Offering from Securely Yours automates the process of vulnerability management and policy compliance across the enterprise, providing network discovery and mapping, asset prioritization, vulnerability assessment reporting and remediation tracking according to business risk. Policy compliance features allow security managers to audit, enforce and document compliance with internal security policies and external regulations.

Unique Benefits:

- *Software-as-Service (SaaS) Advantage*— There's nothing to install or manage. Support for operating and maintaining the solution falls squarely on Securely Yours LLC.

- *Global Deployment* — Easily perform scans on geographically distributed and segmented networks both at the perimeter and behind the firewall

- *Lower and Predictable TCO* — On demand SaaS technology offers significant economic advantages with no capital expenditures, extra human resources, infrastructure, or software to deploy and manage.

- *Comprehensive and Up-to-Date* — Our Partner Qualys has the largest knowledge base of vulnerability signatures in the industry (6,000+) and the vulnerability and software updates are made in real-time

- *Highly Scalable* — The on demand architecture allows for rapid deployment and expansion

QUALYS®

IT Secured. Success Optimized.

CONSULTANTS

Securely Yours is comprised of highly skilled security professionals. All of our employees and contractors are certified CPA, CISSP, CISM or CISA.

SECURE CLOUD BENEFITS

According to Gartner, whether you are ready for cloud computing or not, it is here to stay. Cloud computing allows an organization to address IT costs with a 'just-in-time' approach. Hard IT costs (servers, storage, applications licenses, IT Staff time) can be increased (decreased to respond to business cycles without requiring ramp-up or down time. A secure cloud environment can provide the same and even additional security of an enterprise's data and applications. It provides a centralized, managed IT infrastructure that the enterprise pays for on a usage bases eliminating its

SECURITY-AS-A SERVICE

Cost benefits of Software as a Service include reduced total cost of security services. This is due to the fact that an organization does not incur software or maintenance fees but only pays for the services it consumes.

Securely Yours LLC

VULNERABILITY SCANS

Our vulnerability management service automates the lifecycle of network auditing and vulnerability management across the enterprise, including network discovery and mapping, asset prioritization, vulnerability assessment and remediation tracking according to business risk. Driven by the most comprehensive vulnerability knowledge base in the industry provided by Qualys, Securely Yours delivers continuous protection against the latest worms and security threats without the substantial cost, resource and deployment issues associated with traditional software. As an on demand Software-as-a-Service (SaaS) solution, there is no infrastructure to deploy or manage. By continuously and proactively monitoring all network access points, this offering dramatically reduces security managers' time researching, scanning and fixing network exposures and enables companies to eliminate network vulnerabilities before they can be exploited.

POLICY COMPLIANCE

Using Policy Compliance, an organization can reduce the risk of internal and external threats, while at the same time provide proof of compliance demanded by auditors across multiple compliance initiatives. This offering provides an efficient and automated workflow that allows IT security and compliance professionals to define policies, provide proof and provide documented evidence.

PCI COMPLIANCE

PCI Compliance Offering provides businesses, online merchants and Member Service Providers the easiest, most cost-effective and highly-automated way to achieve compliance with the Payment Card Industry Data Security Standard. Known as PCI DSS, the standard provides organizations the guidance they need to ensure that credit cardholder information is kept secure from possible security breaches. We draw upon Qualys highly accurate scanning infrastructure and technology to perform this assessment.

PATCH MANAGEMENT

Our solution provides rapid, accurate and secure patch management, allowing you to proactively manage threats in the most complex environments by automating the collection, analysis and delivery of patches throughout your enterprise.
