CYBER SECURITY ADVISOR FOR BOARDS AND AUDIT COMMITTEES

Securely Yours LLC is proud to announce a Cyber Security Advisor offering geared to assist Board of Directors and Audit Committee members in the area of cyber risk.

Many Board and Audit Committee members tell us they are immersed in headlines about the latest data breaches and are expected as a director to become more educated about the topic. They are not always clear about the role they need to play and the type of questions they must ask senior management, security executives, and internal audit.

The Cyber Security Advisor will assist Boards and Audit Committee with the following:

- ✓ Define their strategic role given the industry, expectations, and types of risks faced
- ✓ Document relevant Key Performance Indicators (KPIs) for their cyber security program
- ✓ List the questions they should ask the management and internal audit
- ✓ Identify the information from management they must review to be satisfied
- ✓ Provide periodic training to the board along with the most important industry cyber news

Sajay Rai, President and CEO of Securely Yours LLC, described the offering as follows: “Our Cyber Security Advisory services for Boards of Directors and Audit Committees is designed to expand on the Five Principles recently released by the National Association of Corporate Directors (NACD) regarding cyber risks. ”

One such principle recommends that Boards should have adequate access to cybersecurity expertise, and discussions about cyber-risk management should be given regular and adequate time on the board meeting agenda. “Our Cyber Security Advisor services provide this expertise and assists Board and Audit Committees by making their agenda topics both relevant and effective”, added Mr. Rai.

“During our board meetings, cyber security is becoming an ever more important topic and we often wonder if we are asking management the right questions. I am delighted that Securely Yours is pioneering in this area by offering this service at the board and audit committee level”, Dr. Raj Aggarwal, CFA, Board of Directors member at Ancora Securities and Goodwill Industries.
